OUTLAW TRAILS JAMBOREE

Come join us on a three day guided exploration of the San Rafael Swell, Book Cliffs and desert that surround Green River, Utah.

In the San Rafael Swell we will see arches, mines, beautiful rock formations and magnificent canyons. On top of the Book Cliffs there are jaw dropping vistas. In all these places we will be able to see pictographs and petroglyphs of the Native Americans that used to roam this land.

Green River is located in south eastern Utah right off of I-70.
